Hiking tours around Fjord Norway

We know the mountains of fjord Norway extremely well and can of course take guests on hikes that are not listed.

For example, we do not recommend Trolltunga as there are a lot of people and we want to give the guests a more remote feeling of the nature and the mountains, but the customer is "always right" and we of course guide to well-known destinations when there is a request for it.

For these, we agree a driving fee based on where in Norway the desired destination is.
